ABOUT US

Rajshree Group of Industries, one of the largest producers and highly acclaimed in INDIA for Reputed Manufacturers and Exporters of premium-quality Polypropylene Spunbond Non-Woven Fabrics. Quality is at the core of our operations and all employees, procedures and systems are employed to the maximum to ensure no consumer is left undelighted with our product. The entire range offered by us is widely used for industrial, medical & hygiene, packaging and shopping purposes. We are developing our range in both standard and customized finishes that perfectly match the exact business needs of the clients. Our range has various chemical and physical properties, high strength and excellent performance.

Our group have two world class manufacturing facilities situated at KalaAmb, Himachal Pradesh.

VISION

We intend to pursue growth aggressively and efficiently to maintain a strong global presence in the Nonwoven Industry. We offer our vision "World of Quality Nonwoven" to our customers. Growing in new geographical regions and utilizing strong leadership and "state of the art" technology, is our key to providing top quality products and high value solutions to our customers at a cost competitive position. Prioritising towards the contribution to the sustainable development of the society.

MISSION

To exceed our customer expectation in quality, delivery and cost through continuous improvement and customer satisfaction. To support our customers by providing superior products and services of exceptional value which help them gain competitive advantage in their markets.

We are committed to create a successful relationship for a long term with our costumer and supplier. We constantly strive to implement the critical initiatives required to achieve our vision. We strive in product excellence and state of the art technology to provide highest quality Nonwoven Products.

OUR TEAM CULTURE

Supported by a highly qualified and competent team of professionals, we have scaled to great height of success in the market as a renowned manufacturer and exporter.

Our team is well-qualified and have thorough experience in their area of expertise. We maintain an exceptional work environment and constantly create new training programs for our employees to keep them updated to industry standards. They are highly motivated and dedicated to their work. Our greatest asset is our workforce. Although, they are divided into specialized segments but still they coordinate with each other to have a smooth production.
